

MS

DEMOLITION MULTISYSTEM

The transformer machine of the MBI family. It is not a single tool to perform different jobs, it is an attachment that transforms itself into specific tools according to the task to accomplish. Specific jaw sets, make the MS a proper crusher, pulverizer, shear, combi cutter or tank cutter

MS LINE

A perfect tool for different specific jobs. All in one

- Many **different JAW KITS** are available for the MS line, literally transforming it into the perfect tool for a wide array of specific jobs
- Thanks to the **powerful cylinders**, the MS delivers an incredible force. In addition, **pistons are reversed** to be protected from debris and the **rod is forged** to increase durability
- The **continuous hydraulic rotation** enables accurate tool positioning in every working environment. In addition, the double-row thrust bearing ensures **high robustness and increases safety**
- The **speed valve** reduces opening and closing time boosting productivity

TECHNICAL DATA
